SIMPLIFY YOUR LIFE

SALES KIT

Bianchi

LONG ISLAND

The Long Island is an e-bike built for the city, intended to simplify your life and make getting across town easier than ever.

This elegant, stylish machine provides a simple solution to the daily grind of urban travel.

NEW BIANCHI MOTOR UNIT

Pedaling assistance is provided by a Bianchi Central Motor Unit made in Italy and powered by a 418Wh battery. With five modes, from 50% assist right up to 400%, the Long Island is well equipped to aid you up even the steepest of inner-city inclines.

If used economically, the Long Island's range is 130km and it takes just four and a half hours to fully recharge the battery. In practical terms, that's more than enough for a whole week's commuting from a single charge.

AUTONOMY
418Wh battery
Up to **130 KM**

CHARGING TIME
Complete **4,5h**

ASSISTANCE (%)
(1) **50%**
(2) **100%**
(3) **200%**
(4) **300%**
(5) **400%**

Autonomy depends on: user weight, chosen level of assistance, conditions of course, conditions of road surface, wind direction, start/stop frequency.

CROSSTOWN COMFORT

HANDLEBAR SYSTEM

The riser handlebars and adjustable stem combine to create a bike that is extremely comfortable and customizable.

PROTECTIONS

Fenders and a chainring guard prevent dirt or splashes from the road coming into contact with clothing – allowing you to arrive at your next meeting looking as fresh as you feel.

SUPER-VERSATILE

REMOVABLE BATTERY

The rear rack not only allows for the use of additional luggages, but also is the location of the removable battery, easy to carry with you wherever you go.

The bike's lights are powered by the motor unit battery – allowing you to ride in low-light conditions safely and confidently.

DURABILITY & CONFIDENCE

The Long Island frame is built for hardwearing service in the hustle and bustle of the city. The hydraulic disc brakes provide ample stopping power, for confident control when moving around the urban landscape, while the large 700x40c tires absorb road chatter for a smoother, more relaxed ride.

The step-through frame design makes it easy to climb in and out of the saddle.

LONG ISLAND - ALTUS 9SP

CODE	YPB7ZI
COLOR	2A - CK16/Black full glossy
FRAME	Long Island Alloy 6061 step thru frame, Disc, 700c, size: 43- 47cm
SEATPOST CLAMP	339QX Alloy clamp, diam. 34,9mm
HEADSET	Fsa ZS4-Custom 1.1/8" w/15mm Alu cap
